<b>TOTAL</b>			<b>25,037,544.00</b>

**Description:**

- Jadara University allocates a substantial share of its resources to sustainability initiatives that support environmental protection, resource efficiency, and sustainable campus development. The largest portion of sustainability spending is directed toward **energy efficiency and utility management**, including efforts to reduce energy consumption and expand the use of renewable energy technologies. Significant investments are also made in **water conservation, waste management, and green infrastructure**, ensuring efficient use of natural resources and reducing the university's environmental footprint.
  - The university recognizes the importance of community participation in achieving sustainability goals; therefore, a notable share of funding supports **training, awareness programs, and engagement activities** for students, faculty, and staff. Additional investments in **sustainable transportation, carbon management, and sustainable procurement practices** contribute to a comprehensive sustainability framework that aligns campus operations with international sustainability standards and long-term institutional objectives.
  - Overall, the allocation of approximately **37% of the university budget to sustainability-related activities** for the year 2025/2026 demonstrates Jadara University's commitment to creating a sustainable campus environment while supporting education, research, and community engagement in sustainability.
- **The average percentage for the university budget is 37%.**
