Amman, Jordan

## Professional Summary

Dedicated and detail-oriented Medical Laboratory Scientist with a strong academic background and experience in various lab settings, including hematology, microbiology, and molecular biology. Adept at working in teams, continuously seeking professional development, and implementing problem-solving skills. Committed to providing accurate lab results and contributing to the improvement of patient care.

## Education

**Al-Ahliyya Amman University, Amman, Jordan** 2022 - 2024  
Master's Degree in Medical Laboratory Science

### Subspecialty:

Diagnostic Hematology

**University of Jordan, Amman, Jordan** 2021  
Bachelor's Degree in Biology

## Research

- Researcher, University of Jordan, Amman, Jordan** 2021-2024
- First Author – Research Study  
Title: Genetic Variants in Exon 3 of Akt2 Gene in Prostate Cancer Patients in Jordan.  
Served as the principal contributor and first author, responsible for study design, data analysis, and manuscript preparation.
  - Worked on research about the effect of antioxidant (hydroxytyrosol) on nicotine toxicity of kidney cells.
  - Worked on research about Cord Blood Hemoglobins and Gases in Normal Pregnancy and Preeclampsia Patients.  
Collaborated with Prof. Dr. Ziad Shraideh . JU/+962776831807  
Collaborated with Prof. Dr. Zina al-alami . AAU/+962795902816

## Experience

### Lab Technician, Jordan University Hospital, Amman, Jordan

- Conducted tests in hematology lab (CBC, ESR, bleeding time).
- Performed tests in microbiology lab (urine analysis, culture, stool culture).
- Assisted in molecular biology lab (PCR, viral extraction, genome extraction, vein puncture).

### IVF Specialist, Irbid Speciality Hospital , Irbid, Jordan

2021 - 2024

## Courses & Training

- In Vitro Fertilization (IVF)
- Management of Hospitals and Medical Centers
- Blood Draw for Children and Adults
- Wound suturing
- Cardiopulmonary Resuscitation (CPR)
- Human Resources (HR)
- Training of Trainers (TOT)
- International Computer Driving License (ICDL)

## Skills

- Hematology testing
- Microbiology testing
- Molecular biology techniques
- In Vitro Fertilization
- Research and Data Analysis
- Wound suturing
- Team player
- CPR
- Time management
- Lifelong learner
- Human Resources
- Microsoft office
- Computer Literacy
- Strong Communication skills

## Languages

Arabic (Native), English (Proficient)
