**Short Description**

This course introduces students to the fundamentals of the beauty profession by studying hair structure and natural properties, scalp diseases, and common salon-related issues. It also covers occupational safety procedures, including sterilization and sanitation. Students acquire practical skills in basic hair services such as washing, conditioning, scalp massage, drying, and styling using various techniques. The course also includes training in client preparation and the proper use of tools, equipment, and materials in accordance with professional standards.

**Course Objectives**

1. Understand hair structure and health.
2. Identify hair and scalp diseases.
3. Acquire basic skills in washing, conditioning, and scalp massage.
4. Master the use of tools and hair styling products.
5. Create different hairstyles suitable for various occasions.

**Course Intended Learning Outcomes (CILOs)**

**A. Knowledge - Theoretical Understanding**

- a1. Defines hair components and health.
- a2. Distinguishes hair and scalp diseases.

**B. Knowledge - Practical Application**

- a3. Classifies different devices used in hair sectioning and styling.

**C. Skills - Generic Problem Solving and Analytical Skills**

- b1. Performs hair washing, conditioning, and scalp massage.

b2. Uses hair styling tools and products effectively. b3. Performs hair cutting and creates various hairstyles.
<b>D. Skills - Communication, ICT, and Numeracy</b>
b2. b3.
<b>E. Competence: Autonomy, Responsibility, and Context</b>
c1. Applies the principles and procedures of public safety.

### **Plagiarism**

Plagiarism is presenting another person's work as your own. The university enforces strict anti-plagiarism policies, and penalties apply to both offenders and those who assist them. Group work is encouraged; however, each student must demonstrate full understanding and comply with assignment requirements to ensure fair individual evaluation.
